# The Landworkers' Alliance 2026 Calendar

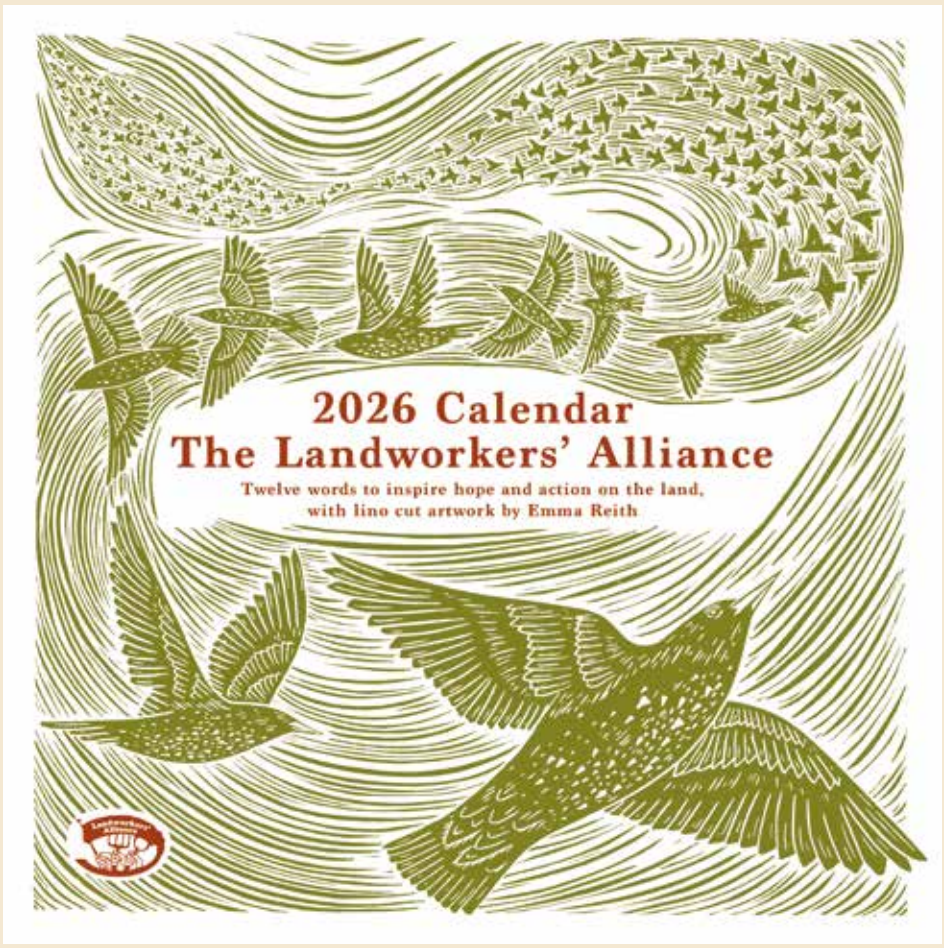

## Twelve words to inspire hope and action on the land, with lino cut artwork by Emma Reith

**We are delighted to let you know that our 2026 fundraising calendar is now available to order!**

This years' calendar once again centres on the theme of agroecology, a method of producing food and sustaining human life in a way which is both socially just and ecologically balanced.

We have chosen 12 words that help explain the roots and meaning of agroecology, accompanied by beautiful illustrations, which we hope will inspire hope in action on the land.

**Our calendar is an important way for us to fundraise; all profits from its sales go towards on-the-ground work to support our membership.**

We are once again working with Cornwall based artist Emma Reith, who has created 12 beautiful, original lino cut artworks. Each illustration gives added context to our chosen words, bringing to life the meaning, history and stories behind them.
